WORK EXPERIENCE

Meesho

Jun’22 - May’23 | Product Designer

Meesho Live Commerce is a fast paced 0-1 construct, enabling shopping experience through livestream hosted by sellers.

Owned Shopping charter, with focus on user-first & data driven process.

- Enhanced comprehension of Value Proposition
 - Effective communication of deals which resulted in **31% Order Activation rate & 23% Order/Viewer** uplift.
 - Better awareness through Live branding and recall element.
- Worked on engagement levers for livestream
 - Surprise discount in user journey to drive better view retention and order conversion in livestream (**22% Order/Viewer** uplift & **14% decrease in early User Drop-offs**).
 - Intent Creation on livestream through better context setting, social proofing and product exposure (8.9% Order/Viewer uplift)
- Improved order activation of users by targeting discounts to particular user cohorts (8.9% Order Activation rate and 13.9% Order/Viewer uplift)
- Designed real time user demand feedback to seller by showing products with highest user intent during livestream (**65% seller retention**)
- Solved for order conversion through better comprehension of products with the aid of recorded product videos.

Peakmind

Jun’21 - Oct’21 | Product Design Intern

Crafted MVP of Self-care portal which recommends well being activities/ sessions based on interaction with Mood Tracker & Personalised Chatbot.
