Field of Interests

Product Design | Architectural Design | Interaction Design

Education

Indian Institute of Technology, Roorkee   *2017 - 2022*
Bachelor in Architecture (4th year)
Current CGPA : 8.01/10

Experience

Peakmind   *June 2021 - Present*
Product Design Intern

Working on self care portal of Peakmind for B2B users. Designing interface for teenager-parent platform in collaboration with product team.

Lim Laurent Architects, Malaysia   *May 2019 - June 2019*
Project Architect

Worked in engagements involving design, detailing and project execution of office and apartmental design for high rise tower. Regularly presented my in depth understanding of architectural elements and design process to senior executives while delivering under strict timelines.

Projects

Project Knoco | Microsoft Design Challenge   *Dec 2020 - Jan 2021*
Product Design

Designed a free learning digital platform for students that focuses on social interaction through online learning. The members of this platfrom gain knowledge from each other through senior peer learning. This platfrom considers knowledge as a community resource which can be shared among its members.

Senior Citizens Habitat   *Dec 2019 - Jan 2019*
Architectural & Housing Design

Designed a senior citizens habitat that includes low and high rise apartments for both assisted and active living with convenient services, senior friendly design features and access to social activites.

Urban Trails | Destech Challenge
Nov 2018 - Dec 2018
Product Design

Designed a digital platform which optimise trails of Architects and Students and captures their local journeys and details of built environment through smart phones. This data can later be analysed and shared with others to draw out meaningful insights about any specific location, building and routes.

Riverfront Design | HUDCO Trophy
Dec 2018- Jan 2019
Architectural Design

Proposed a renovated design plan for a existing riverfront located at bank of river Ganga. The project is based on deep research of the activities and routines of people on riverfront and involves design of temporary structures for seasonal festivals.

Documentation & Surveying
Nov 2018 - Dec 2018
Architectural Documentation

Detailed documentation of Kharsali Village, Uttarakhand which major emphasis on building typology, materials and construction techniques in housing in mountain regions. The study also focused on living habits and activities of people in this region.

Position of Responsibility

Institute Sports Council
Aug 2018 - Feb 2019
Design Secretary

Smart India Hackathon 2019
Jan 2019 - Mar 2019
Design Manager (Organiser)

Awards & Honours

2018 National Winner of Destech Challenge-18 organised by National Association of student of architecture, India for our project Urban Trails.

2018 Shortlisted in Top-10 entries of HUDCO trophy, National competition on Riverfront Design organised by National Association of Student of Architecture, India
